

# All-Waste Industrial Shredder

HDD Computer printer PCB

E-Waste

## Product Details

Shredding Blade

Shredding box

Control Panel

Shredding Particle

Shredding Particle

3. Electrical cabinet

Shredding Particle Size  
30mm\* Random

Security (DIN 66399)  
T - 1  
H - 3  
E - 2

Shredding Capacity  
>1000 pcs / hr

## Advantages

- With 400mm shredding box size suitable for large material shredding.
- Compact and space-saving design for small appliance disposal.
- With durable blades and corrosion resistance feature.
- Safety and ease of operation.
- The equipment features a working capacity of 300 to 800 kg per hour, making it ideal for high-volume processing.

## Specifications

Model	DEZ-SPT4
Shredding Material	E-waste, 3.5 inch HDD, laptop, small printer, PCB, server etc.
Shredding Construction	Two shaft shredders
Shredding box size	400mm
Shredding particle	30 mm * random or customized
DIN66399 Level	T-1, E-2, H-3
Working capacity	300-800Kg per hour ( base on material ) or over 1000 HDDs per hour
Feeding Port size	810* 750mm
Motor Power / Voltage / Frequency	Three Phase 7.5KW /380V/50HZ or customized 440-480V/60HZ
Machine Size	1450(L) x830(W) x 1910(H) mm
Machine Weight	990 Kg
Characteristic	With Touch screen and PLC control, Heavy-duty wheels

\* Customized configurations and shredding particle sizes available.
