

Heavy Metal & E-Waste Shredder

HDD Computer printer PCB

Shredding Particle Size
30mm* Random

Security (DIN 66399)
T - 1
H - 4
E - 2

Shredding Capacity
>2000 pcs / hr

Advantages

- With 500mm shredding box size suitable for large material shredding.
- Compact and space-saving design for small appliance disposal.
- With durable blades and corrosion resistance feature.
- Safety and ease of operation.
- The equipment features a working capacity of 500 to 800 kg per hour, making it ideal for high-volume processing.

Specifications

Model	DEZ-SPT5
Shredding Material	E waste , 3.5 inch HDD, laptop , small printer, PCB , server ect.
Shredding Construction	Two shaft shredders
Shredding box size	500mm
Shredding particle	30mm*random or customized
Working capacity	500-800Kg per hour (base on material) or over 2000 HDDs per hour
Motor Power/ Voltage/Frequency	Three phase2X7.5KW OR 2X11KW /380V/50HZ or customized 440-480V/60HZ
Machine Size	5175.52(L) * 2210(W) * 2259(H)mm
Machine Weight	2800 Kg
Characteristic	With Touch screen and PLC control, wooden package, Heavyduty wheels

* Customized configurations and shredding particle sizes available.
