

THE POWER AND VERSATILITY OF TALINO - ACCEPT NO SUBSTITUTES

Here at SUMURI we take the greatest pride in building the very best forensic workstations anywhere. All of our TALINOs are designed by Certified Forensic Computer Examiners because we believe that the person who best understands what the modern examiner needs is someone who knows forensics! Using our unique and proprietary chassis, we accomplish two major goals:

- 1.) Separate the electrically sensitive components from those that produce more EMI and heat.
- 2.) Since the entire chassis is made of aluminum, we can utilize its entire surface area to help spread and dissipate heat.

Both of these effects help ensure your TALINO runs as smoothly as possible and lasts as long as an examiner needs it!

We use only the highest quality components that have been tested and vetted here in our lab. Our Laptops are designed and optimized for forensics and come with an industry leading 3 year warranty.

Every all TALINO workstations and laptops are built based... on your unique requirements and to our exacting standards. No competitor offers ANYTHING close!

Every TALINO workstation is burned in for 72 hours using multiple stress testing and benchmarking tools. The goal of our quality assurance team is to try and “break” the workstation before shipping it. From logical stress tests to actually physically altering the airflow in the TALINO we do everything in our power to make sure no TALINO leaves the lab until it has been put through the wringer. This is backed by our industry leading 3 year warranty and lifetime access to our support line for every TALINO user. Day or night we are there when you need us.
